

**Representing Quality Manufacturers Since 1917**

**Armstrong International - Intelligent System Solutions**<sup>™</sup> [www.armstronginternational.com](http://www.armstronginternational.com)

**Steam Specialties**

Steam traps, pressure reducing valves, temperature regulators, radiator traps and valves, air vents, strainers

**Steam-A-Ware**<sup>™</sup>

° Sizing and selection software for steam, air and hot water systems

**Condensate Recovery Systems**

Pumping traps, pumping trap packages, flash recovery vessels, sump ejector, Rescue Cap<sup>™</sup>

**Hot Water Heating Equipment**

Flo-Rite-Temp<sup>™</sup> steam instantaneous water heaters, Flo-Direct<sup>™</sup> complete thermal exchange (CTE) water heaters

**Washdown Equipment**

Steamix<sup>®</sup> Hose Stations - Steam and water mixing, hot and cold Water mixing, hoses, nozzles and accessories

**Coils**

Heavy duty and light duty steam and liquid heating/cooling coils. Duramix<sup>™</sup> face and bypass heating coils, finned tube, plate fin, unit heaters, tank heaters and custom packages

**Humidification**

Direct steam injection, gas fired, electronic, fogging, steam to steam humidifiers and unfired steam generators

**Humid-A-Ware**<sup>™</sup>

Sizing and selection software for steam, gas fired, electronic and fogging humidification systems

**Check-All Valve** [www.checkall.com](http://www.checkall.com)

Engineered spring-loaded check valves - 1/8" - 20" bronze, carbon steel, nylon, PVC, stainless steel, Teflon<sup>®</sup> and other alloys, pressure ratings from vacuum to 10,000 psi, wide range of springs and seats

**Heatcraft Commercial Products** [www.luvata.com/heatcraft](http://www.luvata.com/heatcraft)

Water, Steam and DX Coils for heating and cooling in the commercial, industrial, process, and plan and specification markets.

**Shipco** [www.shipcopumps.com](http://www.shipcopumps.com)

Condensate handling equipment, boiler feed units, deaerators and vacuum units.

**ACME Engineering Products, Inc.** [www.acmeprod.com](http://www.acmeprod.com)

Automatic scraper strainers - carbon steel, stainless steel and other alloys. Removes contaminants from 100 microns to six inches in diameter without cleaning

**Burkert Fluid Control Systems** [www.burkert-usa.com](http://www.burkert-usa.com)

Process valves, solenoid valves, diaphragm valves, analytical valves, pneumatic actuation and process sensors for pressure, temperature, flow, level, Ph, conductivity, and ORP

**Funke-Tricor** [www.funke-tricor.com](http://www.funke-tricor.com)

Plate and frame heat exchanger from 1" through 24". Bolted and brazed construction. Plate materials from titanium, stainless steel and other alloys.

**JFD Coil and Tube** [www.jfdcoil.com](http://www.jfdcoil.com)

Shell and tube heat exchangers for high pressure and specialty process/chemical applications

**Lattner Boiler Company** [www.lattnerboiler.com](http://www.lattnerboiler.com)

Steam and hot water boilers - HRT, Firetube and vertical tubeless designs, electric boilers, condensate feedwater and blowdown systems

**Miura North America, Inc.** [www.miuraboiler.com](http://www.miuraboiler.com)

High efficiency steam/hot water boilers and hardness leakage detectors

**Selkirk Metalbestos** [www.metalbestos.com](http://www.metalbestos.com)

Commercial and industrial chimney, gas vent and grease duct

**Sidel Systems** [www.sidelsystems.com](http://www.sidelsystems.com)

Flue gas condensing economizers to recover waste heat from your flue gas. Potential fuel savings of 10-15%. An Energy Star Partner.

Visit our website at [www.steameconomies.com](http://www.steameconomies.com)

This replaces the popular SECO All Products Binders, since manufacturers rarely send updates of their glossy literature, but they keep their literature current on their web sites. You will also find current links on our web site [www.steameconomies.com](http://www.steameconomies.com).
